

## ISO 45001- 2018

# Occupational Health and Safety (OH&S) Management System

ISO 45001 is the new standard replacing OHSAS 18001. ISO 45001, Occupational Health & Safety is focus on risk prevention, innovation and continual improvement will benefit organisations with the foresight to achieve this global standard through improved organisational resilience. As well as increasing employee engagement and publicly demonstrating commitment to sustainable work by providing safe and healthy workplaces, this standard focuses on key business challenges such as the supply chain and continuity planning. This allows organisations to anticipate, adapt and respond, providing both resilience and agility in a global market place.

### FOR WHOM?

ISO 45001 can be applied to any organisation of any size in any country to help promote and control their health and safety risks and hazards.

If you're currently certified to OHSAS 18001 then you will need to migrate to ISO 45001 as OHSAS 18001 will be withdrawn. We have the expertise and knowledge to help you to upgrade your certification and get the most from ISO 45001.

## WHY IMPLEMENT ISO 45001 OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM IN YOUR ORGANISATION?

- ▶ **Improving employee's motivation** through the provision of a safer workplace and participation processes.
- ▶ To identify their health and safety legal requirements as well as to identify on-site occupational health and safety hazards and risks to control **those risks**.
- ▶ Better promotion of health and safety in a workplace to **reduce accidents and incidents**.
- ▶ **Refining corporate's image and credibility** among top management, authorities, customers and prospective clients.

ISO 45001 was developed in response to a global demand for a standardized management system for Occupational Health and Safety.

# CERTIFICATION PROCESS

## CERTIFICATION AUDITING PROCESS

### Optional: Pre-assessment audit

We can provide an independent of your management system (MS) before and/or after the commencement of the Stage 1 audit of the initial assessment process

### Stage 1 audit

First, we gain an understanding of your business to assess whether your documented policy, objectives, continual improvement plans and procedures meet the requirements of MS standard. The readiness of your implementation programme is also assessed. (For GDPMDS certification, this audit is combined with stage 2 audit.)

### Stage 2 audit

Then we audit your MS in action, to check that your declared policy, objectives and targets have been effectively communicated, and that your continual improvement plans and procedures are working in practice. Certification is then awarded after successful closures of any outstanding issues.

### Surveillance audit

After you have achieved certification, we undertake regular ongoing audits of your MS to ensure that it is being maintained and that it continues to meet the objectives of your organisation and the expectation of your customers.

### Re-certification audit

The certificate is valid for 3 years. A recertification audit is conducted on the full MS before the expiry of the certificate.

\* No contractual

\*\* The on-going surveillance is governed by the contract issued during the initial audit.
